SUB: Request to support the Collaborative Database of Open E-Learning Resources developed by the College Librarians of West Bengal

Respected Sir/Madam,

I would like to inform you that the Librarians of different Govt. / Govt. aided Colleges of our state have come up with an idea of creating a collaborative database of open access e-resources according to the undergraduate CBCS syllabus followed by the various Universities of West Bengal. The objective is to organise the numerous open educational resources available on the internet according to University courses, semesters & subjects so that the students can study with a lot of authentic e-resources ready at hand. The objective is to have a shared institutional repository of e-learning resources on CBCS curriculum which could be accessed by the students and teachers of the participating College libraries of West Bengal. Already a database of more than 800 entries with hyperlink to the mother sources, has been developed and maintained with the help of Google sites.

Hence, I seek your kind permission, on behalf of our College, to participate in this project that aims to support the online teaching-learning process. I also seek your permission to allow the linking of our College Website to the database for syllabus and question papers, sharing of study materials or class notes created and uploaded by the faculty members which will allow us to reach each and every student of our state irrespective of College or University he/she studies. I also request you to kindly view the demo website (<https://sites.google.com/view/olr-wb-cbcs/search-cbcs?authuser=0>) for the said purpose and allow the Library to share it among the stakeholders for the academic purpose. I am confident that this project, envisioned by the College Librarians of West Bengal, will be immensely beneficial. I will be grateful if you consider my request and lend your support to this project. I always value your feedback and suggestions and hence waiting for your positive response.

Thanking you,
Yours sincerely
Parama Sarkhel Dutta
Librarian
