**Number of the Participants:** 55

**Brief Description:** This online series of lectures was organised for the students from all disciplines. The lecture by Dr. Hore showed ordinary communist women's participation in political movements in the period just after independence. Dr. Sinha Roy's take was on the Naxalbari Movements in Bengal and women's participation in the 1960s and 70s.

**Outcome:** The examination of political mobilization of women focused on communists in the late 1940s and in the Naxalbari era. Delivered by two authors who have done a huge amount of research on the subject, the complexities of gender politics and radicalism were discussed. Gendering of the learning of history is an important task for the teacher, but since the CBCS syllabi in History gave limited opportunity, a talk of this kind is quite crucial for students and enabled them to raise gendered issues of left movements.

**Date:** 10.01.2021

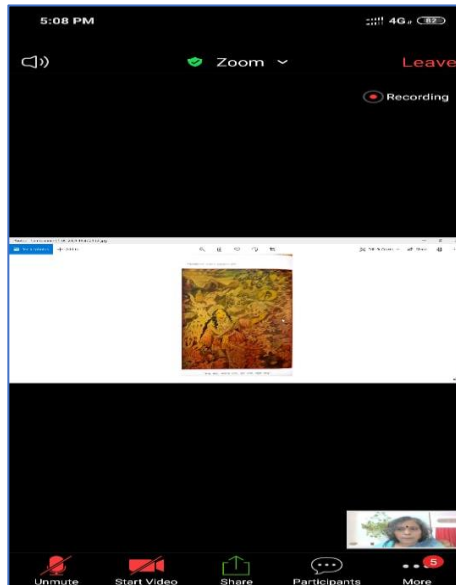

**Time:** 4 PM

**Platform:** Zoom

**Number of Participants:** 72

**Brief description:** In this session, Dr. Aditi Chattopadhyay shed light on the condition of women in the patriarchal society which was woven in the fairy tales of different countries and continents of the world. She portrayed the emphasis on fairy tales and folklores to describe the contemporary condition of the society, its intricacies and norms in different situations. Highlighting the condition of the women folks was one of the most important factors that determines the supremacy of the patriarchs. This was vital because women were the ones who run the household through their physical and mental efforts. But instead of being respected as well as revered they were oppressed and faced tyranny of men since ages.

**Programme Outcome:** This lecture shed light on the unobserved version of folk tales and fairy tales which helps the students to grow a gender-awareness through literature. The students understand the deep-rooted patriarchy in society and culture and thus they can explore those childhood stories from a new gender-related perspective.

**Name of the Resource Persons:**

1. Prof. Dulal Chandra Das, Associate Professor, Dept. of Geography, Bidhan Nagar Govt. College.
2. Mrs. Yogita Dutta, Assistant Professor, Dept. of Geography, Haldia Govt. College.

**Brief Description:** The program was conducted on a zoom platform. The title of the presentation of Prof. Dulal Chandra Das was “Gender Inequality in India”. The title of the presentation of Mrs. Yogita Dutta was “Myth and Reality of Tribal Women in India: Striving to co-exist in the Fourth World”. There was a brief question-answer session after deliberation of the resource persons for 10 minutes.

**Programme Outcome:** Gender Studies is an academic discipline with deep roots and an enormous resonance in the contemporary world. The field is constantly developing, and new research themes, journals and programs keep emerging, testifying to the profound and far-reaching significance of the knowledge produced. Gender studies as a field of study does not offer a single, united approach to understanding the phenomenon of gender. The interdisciplinary nature of the topic and the variety of areas from which gender analysis has emerged means that there are multiple and at times conflicting streams of thought about gender and its meaning and origins. Gender studies developed alongside and emerged out of Women’s Studies, which consolidated as an academic field of inquiry in the 1970s.
