Students of the Economics department along with that of other departments attended the 7 day's workshop. This workshop had been very inspiring and students were delighted to have been able to be a part of this. The speakers were very articulate and knowledgeable and all the sessions were very interesting. Basic knowledge of entrepreneurship was discussed.

It was a very different and impressive experience visiting the garment factory (Regent Garments and Apparel Park, Barasat) and seeing how the products are made! All the steps to make the product were very well explained and it was a great learning experience for the students.

Students really enjoyed the whole program. These concepts and the material presented will most definitely be incorporated into their resources.
