## Seminar on Research Methodology

### SCIENTIFIC RESEARCH METHEDODOLOGY

08th march, 2022  
2pm

Organiser: Department of Education,  
Philosophy & Sociology  
Venue: Muktiprana Sabhagriha  
Number of the Participants: 66  
No of Resource Person: 02

**Resource Persons: Dr. Prarthita Biswas, Professor & HOD, School of Education, Adamas University and Dr. Mausumi Guha, Dept. of Philosophy, Jadavpur University**

**Brief Description and Programme Outcome:** Research Methodology is an essential part of Education as a whole. If any of our students wants to do research project or Doctoral research, they need to know the basic information and idea of research methodology. So the department of Education, Philosophy and Sociology arranged a seminar on the topic. Both the speakers delivered the complex topic very interestingly, which made the students engage in the event wholeheartedly. A research methodology gives research legitimacy and provides scientifically sound findings. It also provides a detailed plan that helps to keep researchers on track, making the process smooth, effective and manageable. A methodology will give students that path. And choosing a wholly suitable and sound method that is right for research project will give the path to help succeed. A methodology will give students the guidelines to make project manageable, smooth and effective. The students gained a comprehensive understanding of different research approaches.
