Course Objectives:

Yoga education can supplement school and university education. It can prepare the students physically and mentally for the integration of their physical, mental and spiritual faculties so that the students can become healthier, saner and more integrated members of the society and of the nation.

Yoga helps in self-discipline and self-control, leading to immense amount of awareness, concentration and higher level of consciousness. The objectives are :-

- To enable the student to have good health.
- To practice mental hygiene.
- To possess emotional stability.
- To integrate moral values.
- To attain higher level of consciousness.
- To understand relationship between fitness and wellness.

- The students will be able to deal with all aspects of spatial and non-spatial data management like acquisition, storage, manipulation, analysis, display and modelling etc.
- The students will be able to deal with applications of geo-informatics which are mainly oriented to real world management problems pertaining to natural as well as man-made environments.

Assessment Procedure:

Three Formative Assessments' scores are provided as percentages. The Total Grade is determined based on the overall performance across all assessments. The Continuous Assessment column provides a general evaluation of the students' participation, engagement and adherence to deadlines throughout the course.

Grading criteria along with the corresponding percentage ranges:

A: 90%-100%

B: 80%-89%

C: 70%-79%

D: 60% - 69%

F : Below 60%
