**Brief description of the event:** A workshop on Learning Management Systems (LMS) was conducted by Mr Saptarshi Chaudhuri to the teachers of RKSMVV.. The session aimed to provide an in-depth understanding of LMS, a software application used for the administration, documentation, tracking, reporting, automation, and delivery of educational courses, training programs, and other learning and development initiatives. The workshop covered various aspects of LMS, including its role in enhancing educational delivery, managing courses, conducting online assessments, collecting user feedback, and analyzing learning data.

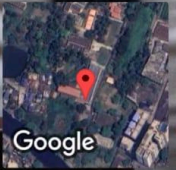

**Program outcome:** The workshop successfully demonstrated how LMS can be a powerful tool for both educators and learners. Participants gained insights into the practical applications of LMS, learning how it can streamline course management, improve the efficiency of online assessments, and provide valuable analytics on learning progress. The event highlighted the potential of LMS to transform traditional educational methods by enabling more interactive and personalized learning experiences. Teachers left the workshop equipped with the knowledge to leverage LMS for better course management and enhanced learning outcomes, making the event a valuable step towards integrating technology into education.
