

**Name of activity:** Medicinal Plant Plantation

**Category:** Student's Activity

**Organising unit:** NSS, RKSMVV

**Date:** 22.07.23

**Time:** 1P.M onwards

**Venue:** College Ground

**Name of resource person/s:** N/A

**Number of participants:** 20

**Brief description of the event:** 20 NSS volunteers have planted 8 kinds of medicinal plants in the college grounds. The names of the medicinal plants are Kulekhara, Bishalyakarani, Bhingaraj, Satamuli, Ayapan, Pipul, Brahmi and Aloe Vera.

**Outcome:** Planting medicinal plants can yield various positive outcomes. These plants often have therapeutic properties that can be utilized for natural remedies and traditional medicine. Cultivating them can contribute to biodiversity, support local ecosystems, and potentially provide sustainable sources for pharmaceuticals or herbal remedies. Additionally, it promotes environmental awareness and may have economic benefits for communities involved in harvesting and processing these plants.
