Semester : 1,3&5

Time : 11:30 am onwards

Place: Room no-2, RKSMVV

Report

The parents of the Semester-1 students are being duly apprised of their daughters' academic progress. It has been reported that Subhadra Karmakar is struggling with her studies, particularly with writing Sanskrit sentences correctly. Her father has conveyed that Subhadra has faced difficulties in her studies from a young age, despite her sincere efforts. He kindly requested that the teachers take her circumstances into account and allow her additional time to grasp the subject. In response, the teachers have graciously agreed to offer her the necessary support. It was also brought to attention that Adity Banerjee tends to be quite talkative in class, a matter which has been communicated to

her parents. On a brighter note, Debalina Maiy and Dipti are excelling in their studies, showing remarkable academic progress. Mosumi Pal, though demonstrating considerable ability, faces the challenge of traveling a long distance, which leaves her fatigued. Nevertheless, she is performing admirably. Teachers have kindly recommended that her parents consider arranging accommodation in the hostel to alleviate this burden.

The parents of the Semester-3 students were provided with the internal examination papers, and it is heartening to report that all the students are performing commendably. The majority of them are displaying a strong commitment and putting forth considerable effort to improve their academic performance. However, it has been noted that Ankita Patra, despite possessing great potential, exhibits a tendency towards laziness and a rather casual attitude towards her studies. This concern has been duly communicated to her parents. Antiva, on the other hand, is making earnest efforts, yet struggles to achieve the desired results, primarily due to difficulties in memorizing Sanskrit answers. This challenge has also been reported to her parents.

There is little to convey regarding the Semester-5 students, for all of them are excelling in their academic endeavors. The guardians of these students have been duly informed of this remarkable achievement. Each student has demonstrated such dedication and capability that the teachers are confidently anticipating a CGPA of 10 in the forthcoming end-semester results.

This revelation has understandably drawn the attention of their guardians, who have now become aware of the situation. In a more positive light, it has been reported that Sonali Nath has shown remarkable improvement ever since her relocation to the college hostel.
