

## **DEPARTMENT OF EDUCATION**

**Name of the Event:** Open House of Semester VI (CBCS)

**Category:** Interactive session

**Date Held:** 11.2.2025

**Time:** 1.45 p.m.-2.45p.m.

**Venue:** Room No.5

**Number of Participants:** 13 students of Semester VI

**Brief Description of the Event:** The Open House was organized to get the students' response about their previous exam and learning experience in the previous semester. The department wanted to know their suggestions regarding development of the department. They were given feedback forms. They clearly stated their need, shared their experiences and gave some suggestions

Some suggestions put forward by the students are -

1. Separate computer laboratory for smooth curriculum delivery.
2. Use of audio visual aids such as TV, charts and models for teaching-learning process.
3. Taking class tests more frequently (i.e. after completion of each sub-unit.)

### **Outcome of the Event:**

The Open House was very successful. The positive and constructive feedback received from students indicates that the event effectively achieved its objectives. They clearly showed their need, like a computer lab for the department. Otherwise they are very satisfied. The open house event served as a valuable opportunity to connect with the faculties of the department. It improved the student-teacher relationship. It also helped the teachers to know about their students' grievances.
